

# ZERO%

## TWO-COMPONENT SOLVENT-FREE ADHESIVE

In 2006 we formulated **THE FIRST TWO-COMPONENT SOLVENT-FREE ADHESIVE: ZERO %**. The experience acquired over the years is our guarantee of the reliability of the most widely sold product of its type: more than 2.000.000 Gal. of the product have been sold since 2006.

**THE ABSENCE OF SOLVENTS** and the very low emission of volatile organic substances, both during application and when the floor is in use, is certified by the **EC1 CLASSIFICATION**.

Being certified EMICODE EC1, ZERO% may apply for the awarding of the EQ credit for Indoor Environmental Quality - Low-Emitting Materials of the new international certification standard LEED v4.

# ZERO%, the original.

## The first two-component SOLVENT-FREE adhesive

In 2006, Vermeister was the first company to believe in, formulate and introduce onto the wood floor market a two component SOLVENT-FREE adhesive made with environmentally-friendly materials. Zero% is the result of the continual research and innovation performed by the Vermeister laboratories in order to reduce the environmental impact and today it is the most widely used solvent-free adhesive. Exceptional coverage and stable ridge.
